Sound Designer

As a Sound Designer, I use my passion for audio to create captivating sound experiences. With a strong background in sound design and diverse experience in projects ranging from music to audio design, I specialize in manipulating sounds to evoke emotions, tell stories, and immerse audiences in worlds of unique sounds. My expertise ranges from capturing and editing audio to designing original soundtracks, ensuring that each project benefits from a distinctive and immersive sonic dimension.

WORK EXPERIENCES

August to September 2023 - **Assistant Sound Designer**
Studio KGB - The movie Wrong Number, Paris, France
